

*The dog you want is within reach!*

Appeal to today's emotionally intelligent dog owner with the patented Clicker Leash, the first system to put modern, humane training at your customers' fingertips. By combining the power of a training clicker with the must-have dog leash, the ergonomic Clicker Leash moves seamlessly from obedience class to real-life situations, making it easy for people to train on the go. The perfect solution for busy dog owners who don't have time to attend classes, the Clicker Leash not only speeds up learning by 30-50% in most dogs, it comes complete with a basic how-to guide and online video tutorials that explain training basics in just 11 minutes.

Each Clicker Leash includes a three-foot, non-retractable leash. Interchangeable leash lengths are also available to accommodate various lifestyles and training needs. The ergonomic Clicker Leash handle is surprisingly lightweight and provides a slip-resistant grip for control with even the feistiest Fido.

Included in package: 1 - Clicker Leash handle, 1 - 3ft long color coordinated leash (in either 1/2" or 1" width) and Basic Instructional Guide.

\*The combined length of your Clicker Leash handle and 3ft leash length is close to 4ft. We have found this to be the ideal length for most dogs and handlers when starting to train.
