

## Dog Brick ..

This clever and inventive game lets you hide the treats in the recesses located under a series of interlocking sliding blocks. Since the blocks can not be removed, your dog must locate the treats by sliding the blocks with either his paw or his nose in order to retrieve his reward.

## Dog Casino <sup>New</sup> ....

This great new game develops your dog's intelligence and rewards their problem solving skills with treats. Not for the easily stumped, your pet must learn to pull the pegs from the top of the puzzle in order to slide a small tray containing a treat out of the side of the game.

## Dog Fighter ...

This challenging new puzzle is sure to make your dog think. Treats are placed under the wooden blocks, which he or she must slide through a channel to be able to remove. This puzzle can be made more difficult with the addition of two larger pegs used to block the channels.

## Dog Spinny .

Hide a few treats in the recesses beneath the rotating top disc. Your dog (or cat) must rotate the disc with its paw or nose in order to reveal and retrieve the treats. This item is available in small or large.

## Dog Trigger ..

This terrific touch game is a great way to interact with your dog. Hide treats in each of the compartments behind the blocks. Place the DogTrigger between your knees or on your lap at your dog's eye level. When your dog pushes the blocks with his nose the treat is dispensed and dog receives his reward.

## Dog Turbo ...

This challenging puzzle lets you insert treats into the restricted passages. Your dog then moves the blocks toward the outside of the puzzle with his paw or nose in order to dispense the treat from the passage and collect his reward.

## Dog Pyramid .

Impossible to knock down, the Pyramid will always right itself so your dog has to keep on working to get the treats out. This toy will provide hours of fun as your dog pushes it around trying to free the treats inside.

## Dog Box ..

This great game develops your dog's intelligence and rewards their problem solving skills with treats. The dog learns to pick up blocks and insert them into the top of the box. Each time he succeeds a treat is dispensed from the box. The Dog Box is supplied with three different lid configurations to control the level of difficulty.

## Dog Domino <sup>New</sup> ....

This tricky new puzzle features interlocking sliding blocks that function in a manner similar to the very popular Dog Brick. Once the sliding blocks are maneuvered correctly, your dog can then slide and remove a peg to reveal additional treats.

## Dog Smart ..

Available for both small and large breeds, you hide a few treats in the recesses which are covered by hollow blocks. Your dog must locate the hidden treat by sense of smell. Since the blocks can not be knocked over, your dog must lift the block with its teeth in order to retrieve the treat.

## Dog Tornado ...

This puzzle has four layers with rotating discs. Three of these layers have recesses for concealing treats. Your dog is required to rotate the discs with his paw or nose in order to reveal and retrieve his reward.

## Dog Trubble <sup>New</sup> ....

This clever maze is designed so that your dog must successfully slide the pegs through a winding channel and maneuver the pieces to the end of the path in order to reveal and retrieve his reward.

## Dog Twister ....

This challenging game requires your dog to locate the hidden treats by moving the interlocked segments around the circular puzzle in different directions with either his nose or paw. To increase the difficulty, various segments can be locked in position with the accompanying wooden pegs.

## Dog Dizzy <sup>New</sup> .

Fill the ball with treats or dry kibble and let the dog have fun by working the Dizzy to retrieve the reward. The weight in the bottom makes the Dog Dizzy roll and twist in different directions but it will always stop in the upright position.
